

Interiors Southeast: Leading Designers Reveal Their Most Brilliant Spaces

Top interior designers in Alabama, the Carolinas, Georgia, Mississippi, and Tennessee offer insight into their diverse and thoughtfully developed residential projects in this exquisitely photographed coffee-table book. Divided into three sections—mountain homes, metropolitan homes, and waterfront homes—the houses themselves range from seaside cottages to elaborate plantations, and their interiors reflect the distinct character of each locale. Traditional and contemporary designs are featured, as are both redesigns and new constructions, providing creative and stylish ideas for those looking for a fresh update and those who are starting from scratch. A resource guide that provides short biographies and contact information for each designer is also included.
