

## Delusional Ravings of A Lunatic Mind

This book is a compilation of articles from my blog, The History and Evolution of Health Care Reform in America. Since the current issues of what we perceive as our health care system have their roots in the history of America, our political decisions, our economic decisions and medical and health related decisions, I often review these prime subject areas in my writings. Inside these pages are my best postings from 2011. They run the gamut of politics, economics, healthcare and other things that struck my fancy during the year.

I hope you find the articles interesting and thought provoking. In my blog I don't try to tell you what to think nor to ask you to think the way I do. I just want you to get more information so you can form your own opinions. I hope my journey of discovery helps you in some small way. In the end, I have determined that I am a MugWump. I hope my writings help you find out what you really are!
