

# Atlas of Histopathology

Atlas of Histopathology is a comprehensive guide covering both didactic and diagnostic aspects of the subject. With more than 500 well-illustrated, full colour photomicrographs and descriptions, the book provides a systemic approach to pathology, covering all areas of the human body. Written by leading pathology experts based in the USA, this atlas provides additional illustrations of basic pathological processes, as well as an advanced pictorial guide to histopathology, making the book useful to both undergraduate and postgraduate students.
