

Building New Nursing Organizations

Winner of the 1992 American Journal of Nursing Book of the Year award, this how-to resource addresses the restructuring of nursing organizations and the conceptual and operational dimensions of change. It guides the nursing or hospital administrator, step-by-step, through the implementation of new professional practice models and systems, and includes strategic guidelines, flow charts, and tables, problem-solving strategies, firsthand experience and advice from the experts, and specific measures to monitor, evaluate, and improve effectiveness.
