

Trompe LOeil Today

From a countryside panorama in a windowless room to a faux mosaic wall, an intricately painted Oriental carpet to a soaring cathedral dome in a single-story room, Trompe loeil painting offers an art form ideal for contemporary interiors, adding color and aesthetic atmosphere and responding to specific architectural needs and situations. Trompe LOeil Today offers a fascinating overview of the range of styles and techniques of illusionistic painting for private residences and public spaces, restaurants and other commercial interiors, and even indoor swimming pools. It covers unusual techniques, such as anamorphism, and bold geometric patterns, as well as more traditional Trompe Loeil subjects, including Pompeian-style wall paintings, classical arches and colonnades, landscapes, statues and reliefs, and elaborate ceiling treatments. The book defines the categories of illusionistic painting: material imitation, or faux finishes, ranging from marble and wood finishes to snake and crocodile skin; grisaille, including imaginary moldings, reliefs, and statuary; small-format trompe loeils, such as those painted in niches and on doors; and large panoramic murals. Experienced professionals, the authors address practical questions and offer helpful tips and tricks for choosing the right materials, technique, and style. They examine the use of perspective and the psychology of visual perception, presenting a visually beguiling array of painting possibilities. Trompe LOeil Today is an essential reference for artists and designers working in trompe loeil and in search of suggestions or inspiration, interior architects and decorators looking for an outline of what can be done to create new and different ambiances, and clients who plan to commission a work. Over 150 four-color photographs illustrate the architectural and aesthetic impact of professional illusionistic work. Trompe

LOeil Today is an invaluable survey of an impressive, popular art form. 180 color illus.
