

Charlotte Perriand: An Art of Living

One of the most innovative furniture and interior designers of the 20th century, Charlotte Perriand (1903-1999) has long been renowned for the tubular-steel chairs she created with Le Corbusier. But she had a rich, diverse career that spanned nearly 75 years and included work in Africa, South America and Asia, as well as Europe. Her independent designs are eagerly sought by collectors. Perriand's long career embraced Art Deco, machine-age modernism, the organic rusticity of the 1930s, serially produced metal and wood furniture in the 50s and 60s, and plastic and prefabricated units in the 70s. This volume contains texts by leading scholars covering many facets of her work and life, and scores of photographs and drawings.
