

## Color Atlas of Burn Care, 1e

Superbly illustrated, with over 400 previously unpublished color photographs, COLOR ATLAS OF BURN CARE covers all aspects of burn care - from burn wounds and inhalation injuries, to therapies, wound care, complications, surgical closures and burn reconstruction. Designed to aid diagnosis, prognosis and choice of treatment for burn victims, each image is clearly displayed and accompanied by concise captions outlining the key features shown. Original, two-color line figures are integrated throughout the text, supplementing individual chapters and illustrating clinical guidelines such as treatment algorithms, pain pathways and important protocols.
