

# Acls Review Avi: Full Motion Video

**The clock is ticking on a young man in ventricular fibrillation...**  
First to respond is his girlfriend, then a bystander, firefighters with an AED, then ACLS Rescuers. Watch an ideal ACLS response from start to finish — more than 15 minutes of real-time video. Zero in on specific skill sequences you need to work on. Skip back and forth in the video, pause for greater detail, or let the video run its full course. All the sights and sounds of an actual ACLS response with second-by-second, skill-by-skill annotation. Experience an ACLS Mega-Code as you've never seen one before!

**No better resource for the ACLS student or provider**

- 43 skills videos
- 29 ECG videos
- 75 audio clips
- 12 photos and animations

Plus: a 15-minute case study showing an ideal ACLS response in "real time." And for further reference, the ACLS Review CD includes the complete text and illustrations of ACLS: Certification Preparation Volume I and ACLS: A Comprehensive Review Volume II by Ken Grauer, MD and Dan Cavallaro, NREMT-P.

**Don't let your ACLS skills slip**

ACLS Review's unique testing station makes the most of your precious study time — by identifying problem areas that need more work as well as areas you're already strong in. An enormous bank of questions written by noted ACLS author and instructor **Barbara Ashbert, RN**, ensures that you'll rarely get the same questions twice. And the ACLS Review testing station prints your results: the whole test, or just the ones you got wrong, along with the right answers and a detailed rationale.

**Ties it all together**

Topic by topic, you get video, photos, audio, text, and rhythms — all in one place. Embedded "hyper links" jump you to related topics, while Bookmark, Backtrack, and Copy features maximize your study time. Covers all ACLS subject areas — Airway, Arrhythmias, Conversion, Electrophysiology, IV and Pharmacology.

This is true ACLS case-based learning your video patient reacts to your interventions as you learn. Ten video simulations on each CD test the ACLS student on the nine AHA core algorithms -- plus a Mega Code scenario that's never the same code twice! Challenge your ACLS skills by choosing the right treatment protocol at each decision point. Bad decisions cause the patient to drastically worsen or to expire! The user is then returned to the point at which the error was made, to try again. There's an ACLS Case Study Simulation for each major ACLS environment.
