

## Mold: Toxic Mold: Fungus, Black Mold, Mold Poisoning & Mycotoxins (Mold Removal, Yellow Mold, Mould, Fibromyalgia, Xerostomia, Xenia, Xerothalmia)

If you have ever found yourself staring at a strange black, yellow or growth in your home or workplace - and just known that it is mold - then this book is for you. The book introduces the concept of mold, where it comes from, what the health impacts can be - allergens and irritators - and just what mold likes to feed on. The book considers what you can do to avoid mold in the first place, but also what you can do once you have discovered it - and then what to do to try and stop it coming back to haunt you. Take a look to arm yourself with information on mold, what to do about it, how simple changes to your own routine can help, and how to get messages over to others. Take control of the situation, fight back against mold, and improve your physical and mental wellbeing into the bargain.
