

In God We Dont Trust

Here is the compelling narrative of the founding of America, told from a perspective that few people have ever heard. That perspective is the Sermon on the Mount. Americas currency declares, In God We Trust. But did the American colonists truly trust in God in the founding of the United States? The product of nine years of research, this new work challenges much of what most of us learned in school about the founding of America and the American Revolution. Bercots well-documented findings will surprise many people. At the same time, this timely work will strengthen the convictions of those who are committed to living by the Sermon on the Mount.
