

Baths and Kitchens (Inside Look)

The aim of this book is offering to its audience a selected variety of architectonic and design solutions for dressing two essential spaces within a home: the bathroom and the kitchen. These everyday corners are usually the scenario of some of the best moments in life. From the kitchen, where culinary secrets of a family are devised. In the bathrooms, behind their doors, some of the most intimate moments are lived...Thus, their design deserves the complete attention from the homeowners. The care devoted to every area will always translate into warmth, confort, beauty, and functionality. It is within architects and designers reach -true magicians of spaces- that possibilities of a bathroom or a kitchen are unexpectedly magnified. Such as the selection shown in this book. Just take a look at the photographs included in every chapter -based on design, light and functionality- and decide to enjoy a real tour through attractive visual experiences and solutions conceived by Mexican architects and designers.
