

Mark #62

Mark: Another Architecture is a bi-monthly international trade journal featuring exceptional architecture projects. Launched eight years ago by the makers of Frame, Mark takes a radical and international approach to architecture, showcasing the best new work from every corner of the world. Viewing the magazine as a visual medium, Mark attempts to avoid jargon and academicism, opting instead for direct communication. Ever curious, Mark wants to uncover architects motivations and use them to inspire. We dare you to try and find an international architecture journal that fills more of its pages with interviews than Mark. Mark shines its spotlight on starchitects and new talent alike. Mark explores the boundaries of architecture and anticipates whats heating up around the next corner. What readers find in each issue of Mark: Notice Board Visions of projects yet to be realized from the drawing boards of architects all over the world. Cross Section Cutting-edge articles whisk readers to the outer reaches of architecture and beyond. Perspective A theme section discussing the state of architecture in a specific city, region or country. Long Section> Articles on new buildings, portraits of architecture practices, and reports on fascinating phenomena from cosmic architecture to treetop living. Tools Reports from manufacturers and information about new building materials.
