

Medical Emergencies in the Dental Office, 5e

The Gold Standard textbook in dentistry today, **MEDICAL EMERGENCIES IN THE DENTAL OFFICE** prepares dental professionals for recognizing and managing medical emergencies and diminishing their danger. It concentrates on the prevention of emergencies and addresses specific types of emergencies: unconsciousness, respiratory difficulty, altered consciousness, seizures, drug-related emergencies, chest pain, and cardiac arrest. Clinically organized around signs and symptoms, it presents the appropriate management in a clear, step-by-step fashion. The appendix consists of seven algorithms that provide a quick reference for life-threatening situations.* Includes the latest American Heart Association guidelines for CPR. * Organized by clinical signs and symptoms to convey the information quickly and easily. * The Quick Reference Section to Life Threatening Situations provides seven algorithms on management of specific emergency situations.
