

Medical Errors for Nurses: Misunderstandings can do harm: Approved for requirement for license renewal for nurses

The healthcare field is constantly changing and progressing, with new theories on diseases, technological advances, patient care trends, new and revised protocols, medical breakthroughs and research findings. Added to that are the vast amounts of information affecting how nurses practice and provide patient care. Medical Errors: Misunderstandings can do Harm is for adult health that offers 2.0 continuing education credits. In order to provide the best patient care you must invest in educational opportunities that give you up to date knowledge and skills. Although education takes time, learning new information is beneficial to you, your employers and patients. Continuing nursing education gives you an opportunity to brush up on knowledge you may not have used recently or to gain a more technical background in your specialty. Continuing education is a viable means of improving your professional competence with the outcome of improved health care and job opportunities. Continuing nursing education can also assist you in the continual acquisition of knowledge, the extension of professional responsibilities, the expansion of interpersonal skills, and the improvement of problem solving approaches to professional practice. Continuing your education is part of lifelong learning. Participating in lifelong learning is every nurses responsibility. The impact of continuing education depends upon the willingness and readiness of nurses to implement change in their own practice by realizing that competence in any profession requires periodic updating. Nurses who describe themselves as professionals need to accept a personal responsibility for their own continued learning. It is the responsibility of professional nurses to complete continuing education in order to maintain a level of competence and improve patient care and outcomes. In an ever-changing healthcare

environment, a nurses job is constantly evolving. Making a commitment to provide quality patient care means being willing to continue learning every day. There are 12 different programs included in this manual with 15.0 continuing education credits. These continuing nursing education activities were approved by the Alabama State Nurses Association, the Florida, Georgia and DC boards of nursing, accredited approvers by the American Nurses Credentialing Centers Commission on Accreditation.
