

Medications and Math for the Nurse

Geared toward the LP/VN programs, this revised text provides a comprehensive introduction to pharmacology covering basic mathematics, the calculation of dosages, medication administration and essential drug information as it relates to classification and/or effects on body systems. The emphasis is on safety and the delivery of professional patient care. Supplements Instructors Manual 0-8273-8329-0 Computerized Testbank 0-8273-8330-4 - 3.5 diskette
