

Field and Forest: A Guide to Native Landscapes for Gardeners and Naturalists (The Naturalists Bookshelf)

This book delightfully conveys the pleasures of ecological landscaping. *Field and Forest: A Guide to Native Landscapes for Gardeners and Naturalists* is for those readers who enjoy plants and want to know more about our native plant communities, how they relate to one another, and what each of us can do to help preserve and restore them. *Field and Forest: A Guide to Native Landscapes for Gardeners and Naturalists*, originally published in 1992, features an entire section, five chapters, on ecological landscaping. Jane Scott discusses how to recreate native plant communities in your own garden and how to look to nature for garden design ideas. She also includes lots of practical, down-to-earth advice on maintaining a natural garden, as well as things to watch out for when buying native plants from nurseries. Another helpful section focuses on the names and classifications of plants, to help the naturalist identify species encountered on neighborhood strolls and countryside hikes. This book will not only make such excursions more rewarding, it will help you to recreate what you see in your own backyard. *Field and Forest: A Guide to Native Landscapes for Gardeners and Naturalists* is a companion to field guides, a reference and a charming book to browse through all year round. It is illustrated with one hundred of the author's lovely line drawings. Overall, the book is well written and is filled with delightful illustrations drawn by the author. Reading it will make a walk through the woods or fields a new and rewarding experience. *The Conservationist* A wonderful resource for nature lovers and gardeners is finally back in print. *Field and Forest: A Guide to Native Landscapes for Gardeners and Naturalists* by Jane Scott is both inspirational and instructive, teaching gardeners how to capture the essence of natural landscapes in their gardens. This book is a classic. North American Native

Plant Society Newsletter Fall 2002 Jane Scott is the author of five previous books. Her articles have appeared in major gardening journals and she writes a monthly newspaper column called Woodland Diary. Her horticultural achievements have won her several awards.
