

Bedside Manna Revisited: A perspective on patient centred care

A retired hospital chaplain looks at the traumatic and complex experience of ill health that patients and their families face together and offers suggestions about the much needed sensitive pastoral and spiritual care which brings a feeling of nurture to people adrift from their normal lives in the NHS hospital setting. In the ever increasingly mechanised and emotionally barren world of healthcare this book provides a much needed and overdue counter-cultural corrective. - Hospice Chaplain Authentic and compelling. Indeed, how much do we lose our personhood when in hospital? - Patient and Healthwatch representative I wish I had had access to this book in 1997 when I first moved into NHS hospital Chaplaincy. The wisdom and experience displayed here would have been invaluable and prepared me for the years to come. - Hospital Chaplain
