

## Pocket PE: Physical Examination Study Cards

These double-sided, portable flashcards contain information regarding the steps of a physical examination and are designed to be carried by students and clerks for review immediately before a patient evaluation. Physical examination procedures for each body region are covered on the front of the card; pathology that can be encountered in that body region is detailed on the back of the card. Features include: A uniform format of inspection, palpation and testing procedures on each card Separate cards for examination of infants, well children, adolescents, older patients, and pregnant patients An index of signs, tests, and reflexes Simple illustrations for difficult concepts, such as range-of-motion diagrams for the musculoskeletal system Tools often used for patient evaluations, such as depression scales and height/weight cards
