

# Ophthalmic Nursing

Ophthalmic Nursing is an invaluable resource for all nurses involved in ophthalmic care and an essential text for courses in ophthalmic nursing. This fourth edition has been fully updated and revised to reflect recent advances in diagnosis and treatment and developments in the role of the ophthalmic nurse. It includes a stronger emphasis on care in primary settings, more information on issues such as new treatments, infection control, use of technology, and greater detail on theatre, anaesthetics and recovery.
