

Simulation Learning System for Nursing Fundamentals (Retail Access Card), 1e

The Simulation Learning System (SLS) integrates simulation technology into your fundamentals nursing course with realistic patient care scenarios and supportive learning resources that correspond to your nursing fundamentals text. The SLS offers: targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with an SBAR shift report and fully-functional electronic health record (EHR); post-simulation exercises like charting and concept mapping; and review resources such as animations and text references. Using SLS helps bridge the gap between lecture and clinicals to prepare you for the real world of nursing. This product is intended to be used in an instructor-led course in order to access product content. 18 online evidence-based simulation scenarios with QSEN-based performance objectives Electronic health record powered by SimChartPre- and post-simulation activities to help prepare you for simulation and reinforce your understanding after simulation
