

SOCIOPOLIS PROJECT FOR A CITY OF FUTURE

Sociopolis is a project for the building of a city neighbourhood of public housing in the 21st century. Under the direction of Vicente Guallart, thirteen international architects (Toyo Ito, MVRDV, FOA, Francois Roche, etc.) propose schemes for the construction of a neighborhood in the city of Valencia, schemes in which a new relationship is posited with the farming and natural environment, thus creating the conditions for a new shared habitat.
