

The Challenge of Bahauallah

In the 19th century Bahauallah prophesied the lamentations of Berlin, the downfall of Germany in two world wars; he warned against the development of nuclear weapons; He foresaw the day when space travel would be possible . . .Who was Bahauallah? He claimed to be the Messenger of God for this age. He said His teaching held the key to a peaceful and united world. Is this true? How can we test the validity of this claim? Gary L. Matthews suggests a number of possible ways. He examines the prophecies, predictions, life and character of Bahauallah - and comes to an astounding conclusion. This popular book is now available again with a new attractive cover and some minor revisions to the text.
