

The Chiropractors -- A Faustian Saga

A retrospective and introspective history of the Chiropractic profession and an insight into the future as never before written! A must read for all Chiropractors and Chiropractic students. (If you don't know where you've been, or what you stand for, you'll never know where you're going.) Written by a man who lived and breathed Chiropractic for 47 years and who now has the luxury of standing aside and viewing the profession -- viewing the forest instead of standing among the trees.
