

Fine Art of Prescribing Glasses Without Making a Spectacle of Yourself

Award-winning text can help every clinician -- beginning and experienced -- have more satisfied patients. Through 150 case studies, the book helps you solve everyday problems in refraction. It explores and explains the multitude of variables that can lead to patient complaints, giving logical answers to many different kinds of situations. The result will be more wise decisions in diagnosis and prescribing. Best Medical Book of the Year award (American Medical Writers Assn.).
